

NECP Goals and Objectives

NECP Goal 1

By 2010, 90 percent of all high risk urban areas designated within the Urban Area Security Initiative (UASI) are able to demonstrate response-level emergency communications within 1 hour for routine events involving multiple jurisdictions and agencies.

NECP Goal 2

By 2011, 75 percent of non-UASI jurisdictions are able to demonstrate response-level emergency communications within 1 hour for routine events involving multiple jurisdictions and agencies.

NECP Goal 3

By 2013, 75 percent of all jurisdictions are able to demonstrate response-level emergency communications in the event of a significant incident as outlined in national planning scenarios within 3 hours.

NECP Objectives:

- **Formal Governance Structures**
- **Coordinated Federal Activities**
- **Common Planning and Operational Protocols**
- **Standards/Emerging Technologies**
- **Emergency Responder Skills and Capabilities**
- **System Life-Cycle Planning**
- **Disaster Communications Capabilities**

**Homeland
Security**

State NECP Milestones – due 7/31/09

- Establish a full-time statewide interoperability coordinator or equivalent position (*page 12*)
- Incorporate the recommended membership into the Statewide Interoperability Governing Body (SIGB) (*page 13*)
- Establish the SIGB via legislation or executive order (*page 13*)
- Tactical planning among Federal, State, local, and tribal governments occurs at the regional interstate level (*page 14*)
- All Federal, State, local and tribal emergency response providers within Urban Area Security Initiative (UASI) jurisdictions implement the Communications and Information Management section of the National Incident Management System (NIMS) (*page 22*)

**Homeland
Security**

State NECP Milestones – due 2010

By 1/31/10: Program nationwide interoperability channels into all existing emergency responder radios (*page 22*)

By 7/31/10:

- Incorporate the use of existing nationwide interoperability channels into standard operating procedures (SOPs), training, and exercises (*page 22*)
- Update SCIP to reflect plans to eliminate coded substitutions throughout the Incident Command System (ICS) (*page 22*)
- Complete disaster communications training and exercises (*page 36*)
- Define alternate/backup capabilities in emergency communications plans (*page 37*)
